

Mada Hemanth

+91 76610 22620 | Gmail | [GitHub](#) | [LinkedIn](#) | [Project Portfolio](#)

Full stack developer shipping production-ready **MERN** applications from **REST APIs** and **PostgreSQL** schemas to responsive **React UIs**

SKILLS

Backend : Node.js, Express.js, REST API Design, JWT Authentication, bcryptjs, Role-Based Access Control, Socket.io, Sequelize ORM

Frontend : React.js, Next.js, EJS, Tailwind CSS, Bootstrap, Responsive Design

Databases : PostgreSQL, MongoDB, MongoDB Atlas, Mongoose ODM

Languages : JavaScript (ES6+), Java, C, HTML5, CSS3, Python

Tools & Deployment : Git, GitHub, Postman, VS Code, Vercel, Render, Cloudinary, Mapbox

Currently Learning : Docker, SIEM, Log Analysis

PROJECTS

RateStore — Full-Stack Store Rating Platform [GitHub](#) [Live Dashboard](#)

React.js | Node.js | PostgreSQL | JWT

- Built a **3-role** platform (Admin, Store Owner, User) with fully isolated dashboards — admins manage users and stores, owners track ratings, users browse and submit ratings.
- Designed a normalized **PostgreSQL** schema with Sequelize **ORM**, enforcing relational integrity across Users, Stores, and Ratings tables with average rating computed at query time.
- Implemented complete backend security — **JWT** auth, bcrypt hashing, role-based middleware, and dual-layer form validations across all **14** API endpoints.

MindGrid — AI-Powered Life Operating System [GitHub](#) [Live Dashboard](#)

React | Node.js | MongoDB Atlas | OCR + NLP | JWT

- Architected complete backend from scratch — **10+** RESTful **API** endpoints, JWT authentication, and role-based access control supporting multi-user data isolation.
- Integrated **OCR + NLP** pipeline to auto-extract structured data from bills and receipts, reducing manual task creation effort by ~80% and auto-generating smart reminders.
- Deployed full stack app on Vercel (frontend) and Render (backend) with environment-based config, achieving **100%** uptime across all production endpoints.

Ledgr — Personal Finance Dashboard [GitHub](#) [Live Dashboard](#)

React | Vite | Chart.js | Context API | Vanilla CSS

- Built a fintech-grade dashboard with **6** KPI cards, income vs expense bar charts, and spending doughnut charts — visualizing 100% of transaction data in real time.
- Engineered role-based access control (Viewer/Admin) with full **CRUD** for transactions and CSV/JSON export, reducing manual reporting effort to zero.
- Architected state management using React Context + useReducer — handling complex multi-category transaction logic without any external library like Redux.

Wanderly — Full-Stack Travel Listing Platform [GitHub](#) [Live Dashboard](#)

Node.js | Express.js | MongoDB | EJS | Cloudinary

- Built an Airbnb-inspired platform with **MVC** architecture and Passport.js authentication — securing bookings, reviews, and role-based access for hosts and travelers.
- Integrated **Cloudinary** for scalable image storage and Mapbox API for interactive geolocation maps across all listings.
- Structured entire application using MVC architecture with **EJS** server-side rendering — cleanly separating data models, route controllers, and view templates across 8+ route files.

ComidaCare — Real-Time Food Donation Platform [GitHub](#)

React | Node.js | MongoDB | Socket.io

- Built real-time backend infrastructure using Socket.io — delivering instant notifications between donors and recipients with 0ms polling delay.
- Implemented full authentication system, live activity feed, and Google Maps API integration across a React + Node.js/Express full-stack architecture.

CERTIFICATIONS

- Web Development Hackathon — Runner Up, YuvaRang-2K25, CETA, Mohan Babu University (university-wide)
- Code Verse Hack Fest 2K24 — Participant, MBU × IBM iDEALab innovation hackathon (AI/ML focus)
- Cyber Security with Ethical Hacking Workshop — GE-CELL, IIT Hyderabad & Techobytes (Jan 2025)
- AWS Student Community Day — Certificate of Participation, Mohan Babu University (Nov 2025)
- Prompt Design in Vertex AI — Google Cloud skill badge (Oct 2025)

EDUCATION

Bachelor of Technology - Computer Science and Engineering

2023-2027

Mohan Babu University, Tirupati | CGPA : 8.9
